CQA/ACC  
Supplies:

- Sewing machine
- Walking foot

Student Supplies:

- The WALK and WALK 2.0 books are highly recommended.
- Thread for quilting (I recommend 50 weight aurifil (or similar brand) thread in both the top and bobbin) Typically an 80/12 needle is a good match for 50-weight thread. Choose a needle that is good for piercing layers like a sharp, quilting or topstitch needle. Thread that contrasts with your practice sandwiches will help you see your quilting stitches better while practicing. I will demonstrate and teach about using heavier weight threads. If desired, have a heavier weight thread (28 weight is recommended) available for practice. Make sure you have a larger needle to handle the heavier weight thread. Typically, a 90/14 needle works with 28-weight thread.
- Fabric safe marking pencil and a 24" acrylic ruler for marking
- Quilting gloves (optional)
- (4) 15" x 15" quilt sandwiches for practice. (top, batting, backing) Please make sure that the area available for quilting is a full 15". I recommend that the backing and batting extend at least 1" past the top of the sample sandwich.
- Snips or scissors and a stiletto or tweezers for pulling up bobbin thread
- 

\*\*Practice sandwiches should be whole cloth and solid fabrics so you can easily see your stitching. I recommend low loft cotton batting. You can pin baste or spray baste your prepared quilt sandwiches, but they

need to be basted and ready to quilt. Spray basted quilt sandwiches will be easier to mark and are recommended.
